📍 Bhopal, Madhya Pradesh

SUMMARY

I am a Java developer with basic knowledge of object-oriented programming and cloud concepts. I have worked on small projects using Java and enjoy solving problems through code. I can work well in a team, communicate clearly, and am always ready to learn new things. I want to use my skills to contribute to real-world software development.

PROJECTS

Book Management System

- Developed a Spring Boot RESTful API for managing book records with full CRUD operations using H2 in-memory database.
- Utilized core Java, Spring Boot, Spring Data JPA, and REST principles to build an efficient and scalable backend application.

Movie Booking System

- Developed a Simple Movie Booking System using Spring Boot, implementing RESTful APIs for managing movies and ticket bookings.
- Features include listing available movies, booking tickets with seat availability validation, viewing booking details, and canceling bookings.
- Utilized in-memory database for data persistence and applied CRUD operations with proper request handling and response management.
- This project demonstrates practical experience in backend development, API design, and basic business logic implementation.

EDUCATION

B.Tech | Computer Science Engineering

OIST, Bhopal

📅 2022 - Present

Class XII | CBSE

LBPS Aurangabad, Bihar

📅 04/2019 - 04/2021

Class X | CBSE

Saraswati Shishu Mandir Aurangabad, Bihar

📅 2013 - 2019

STRENGTHS

Positive Attitude Quick learner

Team Management & Leadership

Punctual & Reliable

Critical Thinking & Problem Solving

SKILLS

Java
